

PRESS RELEASE

AOB MAKES VITAL DONATION TO ADELIN CLINIC

Antigua Overseas Bank Ltd. (AOB), a member of the ABI Financial Group, offered a helping hand to the Adelin Medical Centre by donating a Multifunctional Anesthesia Machine to the clinic’s main operating theatre.

On Friday August 24th, ABI Financial Group’s Manager of Public Relations and Marketing, Marie-Antoinette Mora, handed over the new equipment to doctors and nurses of the Adelin Medical Centre located on Fort Road. AOB Brazil, AOB’s representative office in Sao Paulo, arranged the donation on behalf of one of its clients.

During the hand-over Ms. Mora declared, “As soon as we heard that the Medical Centre was in need of a machine, we approached our sister company in Brazil and they immediately contacted one of their clients who was happy to make the donation. We are

extremely pleased to know that we could offer a helping hand to Adelin and ultimately to the patients who will be using the equipment”. The multifunctional Anesthesia Machine, which cost in excess of US\$10,000, is suitable for both adults and pediatrics.

“The new Anesthesia Machine will definitely improve the Clinic’s services. It will be great for operations since it will be much more reliable than our old machine,” said Lois Belizaire, Adelin Medical Centre’s Administrator, who was responsible for sourcing and ordering the equipment.

The donation is part of ABI’s continuous commitment to the people of Antigua & Barbuda. The entities that comprise the ABI Financial Group believe strongly in giving back to the communities that support them and this most recent donation is testament of that.
